

The Worshipful Company of Water Conservators

2019 WET 10 Lecture:

As part of the City of London's 'Plastic Free City' initiative we are proud to present two eminent speakers who will discuss the harm society's reliance on plastic is causing. Are there solutions to this global environmental challenge?

**Date: The Eve of World Water Day on
Thursday 21st March 2019**

Speakers:

Professor Richard Thompson OBE, Professor of Marine Biology,
Plymouth University – Subject matter; **Marine Litter**

Lynette Dollar, Principal Sustainability Consultant, Stantec – Subject
matter; **Plastic: Advantages vs Disadvantages**

***Plastic waste is now widely distributed in our rivers and oceans
and the harm to marine life and our own health is becoming more
well understood. But society is wholly reliant on plastic. How can
a balance be struck?***

Venue: Guildhall Members Club, 3rd Floor, Aldermanbury, EC2P 2EJ

Timings:

5.30 – Tea/coffee 6.00 – Presentations by our key speakers
7.00 – Questions from the floor 7.30 – Drinks Reception

[Booking your attendance](#)

Although attendance at this event does not incur a charge (and no admission cards are being issued on this occasion), we are required however to inform the City Corporation of attendees' names.

Please therefore register your places by email to clerk@waterconservators.org indicating your name and the names of the individuals in your party.

In return when those places have been processed and approved, you will receive a return email indicating "Your places are confirmed".
