

Installation Ceremony

21st September 2020

On the 21st September 2020 Rob Casey was successfully installed as the 32nd Master of the Worshipful Company of Water Conservators by a “virtual ceremony” conducted via zoom video conferencing with members of the Court present. This was the first time in our history that such an important event has been held in this manner and despite the chance of technical difficulties getting in the way, it passed off reasonably well.

Also as part of the Installation Ceremony Mark Lane was successfully installed as Deputy Master, Graham Howells as Thames Warden, Martin Baggs as Fleet Warden and Christine Jarvis as Walbrook Warden.

Newly Appointed Master and Wardens

It was a great shame that all our members could not be present and meet up for lunch under the present circumstances, however the virtual event ran very smoothly thanks to our Clerk, and also to Past Master Simon Catford for managing the technology.

The Installation Ceremony was preceded by a virtual meeting of the Court led by the previous Master Mark Lane during which Martin Bigg, Ramon Bravo Gonzales and Tony Williams were clothed in the Livery. Also the above along with Andrew Williamson were then admitted as 4 new Court Assistants.

Rob Casey, Master
