

LADIES' VISIT TO WINDSOR CASTLE

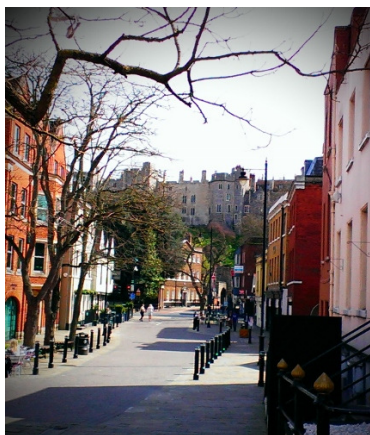

On 24 April 2013 the Master's Lady, Lis Matthews entertained a group of Water Conservators, partners and guests on a visit to Windsor Castle.

The group enjoyed the glorious sunshine barely seen in April - before or since!

The group toured the Castle grounds and gardens, St. George's Chapel and the State Apartments including a close study of Queen Mary's Dolls House.

Our guide Alan kept the group very well informed about the history, architecture, gardens and displayed artefacts.

Following the Castle tour, all adjourned to The Christopher Hotel restaurant for a much needed and tasty lunch.

All in all, a thoroughly enjoyable day.

Special thanks to Janet Reeves for organising the visit.
