

WORSHIPFUL COMPANY OF WATER CONSERVATORS

Bringing Home the Ryder Cup?

The Water Conservators' golf team took part in the Worshipful Company of Marketors' golf event on the 4th July and ended up winning a handsome trophy! As far as I know this is the first trophy that our team has won in our not very long history.

In competition with 16 other livery companies we fared well in the Stableford - three out of four balls scoring format. We managed to have only one of us failing on each hole.

As this event was held at the Verulam course in St Albans which calls itself the 'Home of the Ryder Cup', we now consider our team to be the winners of the 2016 Ryder Cup! That's stretching it a bit but it was a fine performance by our members Roger North, David Port, Richard Waller and Tim Askew.

An excellent day was had due to the weather being kind, a fine course, good company and an excellent dinner to finish.

If there is sufficient interest it is proposed to gather a few members together at RAC Epsom as guests of Roger North in the autumn. Please let me know if you are interested to join us.
