

The Sheep Drive 2013 – Version 3!

We really should have got co-ordinated and arranged for a Water Conservators group drive on Sunday!

Bob and I were on the 2 pm drive from the City end of London Bridge towards Southwark. The weather was good, the sheep (Texel crossed Suffolk from a farm near Woburn) were very well behaved and not in the least bit bothered by people or traffic and great fun was had by all.

According to the Master Woolman, this may become an annual event.
