

The Worshipful Company of Water Conservators

MORNING VISIT TO THE OXFAM SUPPLY CENTRE

BICESTER, OXFORDSHIRE

WEDNESDAY 9 FEBRUARY 2022

A visit has been arranged to the **Oxfam Supply Centre** based in a warehouse in Bicester. The Centre has a team of dedicated staff with expertise in Water, Sanitation and Hygiene, (WASH) technologies, procurement, warehousing and export logistics. It purchases, stores and distributes emergency humanitarian equipment for Oxfam programmes and other charities.

Oxfam takes the international lead for WASH in Disaster and Emergency Services (DES) or Emergency Management, a collective effort to help prevent and minimise the seriousness of emergencies and disasters. The Supply Centre is registered as a *Known Consignor* and the facility and staff have been pre-cleared to enable the cargo to be dispatched at short notice by airfreight without the need for further security checks.

During our visit we will tour the facility, meet some of the staff, view the equipment they hold and hear about the logistics involved in bringing water, sanitation and hygiene to disaster hit areas.

The tour starts at 11.00. If you would like to join this tour please complete the form and return it by email to georgina@gmhall.co.uk by 14 January 2022.

Full joining instructions will be issued before the event, including lunch possibilities and directions to Bicester Village Outlet Shopping Centre.
